1. Using the Go-to-Webinar Interface

Using the Go-to-Webinar Interface

Click the red arrow to toggle between hidden and not-hidden

If the Go-to-Webinar Control Panel is hidden (minimized) it will look like this

If not hidden, the Go-to-Webinar Control Panel will look something like this

Using the Go-to-Webinar Interface

Use the View drop-down menu, for example:

- ✓ to autohide control panel or not
- ✓ to restore the basic default layout if something disappears

Using the Go-to-Webinar Interface

By toggling the little triangle by each Control Panel section, you can expand it or contract it

We will put important handouts in this section

When you ask questions of the staff, your questions and answers will be shown in this section

Or when the staff sends the audience a message, you will also see it here

Using the Go-to-Webinar Interface

By toggling the little box in the upper right-hand corner of a given section, you can undock it or redock it

Using the Go-to-Webinar Interface

To ask a question, you type in the empty box, and then hit "send"

The question you asked should then show up in *your* Control Panel

When we answer it, the answer will show up in *your* Control Panel

Using the Go-to-Webinar Interface

Sometimes we will ask for a show of hands on a particular question. You click the little hand icon to raise your hand

To lower your hand, you click again on the same icon.

Normally, after we get the answers, we will automatically lower everyone's hand

You are in listen-only mode, so you don't raise your hand to ask a question.

Using the Go-to-Webinar Interface

You can click on the “globe” icon to change the language of the Control Panel. Although Questions and Answers will be in English

2. Asking Questions

Asking Questions

- Ask general questions about the Webinar or Go-to-Webinar in the Control Panel that was just discussed
